- Responsible for IT - since 2005
- IT-Consultant, Danish Police Academy – since 1995
- Married to Marianne - since 1984
- Two grown up kids – both Exchange students
- Hosted seven Exchange students

Who developed this system?

- Rotary Youth Exchange Denmark
- 1992: First version developed by Past Multi-District Denmark Chairman Arnold Nørregaard
- 2002: Second version initiated by Past Multi-District Denmark Chairman Arne Jensen, Past President for RYE worldwide
- 2005: New multi-functional Web Management System

Who uses the system?

- 1992: Denmark
- 2006: Norway
- 2007: Finland
- 2009: Two Australian districts
- 2009: Sweden (expected)

Who owns the system?

- All rights to program and source code belong to Rotary Youth Exchange Denmark
- NON-profit project
- No Rotarians earn money on this system
- Our vision is a global YE Management system under the control of a Rotary Youth Exchange (System) Board

Location and Programming

- Located in a professional hosting center in Denmark
- Performing daily back up and system support
- Backup site in separate hosting center
- Running on Microsoft SQL server
- Programmed in Microsoft .NET 3.5

Benefits of using the system

- Time saving
 - Updated information always at your fingertips
 - All users have access to the same information
 - Individualized mails / letters to large groups of people
 - Export of data for name tags, business cards, etc.
- Share information with other districts and countries

Benefits of using the system

- Secure transfer of best practice to new YEOs
- Emergency situations – quickly find Contacts
- Send information to RI via the system instead of sending a copy of Guarantee forms

System Functions

- Handle YEOs, students, families and other contacts
- Create your own search templates and/or print lists
- Create document or e-mail templates with merge fields
- Send e-mails and/or print documents to a selected group
- Handle Quarterly Reports from students
- Manage events
- Web Application System
- Home Page – Content Management System

Thanks for listening
